

JARID1A Antibody (C-term) Blocking peptide
Synthetic peptide
Catalog # BP12258b

Specification

JARID1A Antibody (C-term) Blocking peptide - Product Information

Other Accession [A8MUS2](#), [NP_005047](#)

JARID1A Antibody (C-term) Blocking peptide - Additional Information

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

JARID1A Antibody (C-term) Blocking peptide - Protein Information

JARID1A Antibody (C-term) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

JARID1A Antibody (C-term) Blocking peptide - Background

The protein encoded by this gene is a ubiquitously expressed nuclear protein. It binds directly, with several other proteins, to retinoblastoma protein which regulates cell proliferation. This protein also interacts with rhombotin-2 which functions distinctly in erythropoiesis and in T-cell leukemogenesis. Rhombotin-2 is thought to either directly affect the activity of the encoded protein or may indirectly modulate the functions of the retinoblastoma protein by binding to this protein.
