# CLEC3B Antibody (Center) Blocking peptide
**Synthetic peptide**
**Catalog # BP12640c**

## Specification

### CLEC3B Antibody (Center) Blocking peptide - Product Information

Primary Accession P05452

### CLEC3B Antibody (Center) Blocking peptide - Additional Information

**Gene ID** 7123

**Other Names**
Tetranectin, TN, C-type lectin domain family 3 member B, Plasminogen kringle 4-binding protein, CLEC3B, TNA

**Format**
Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage**
Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions**
This product is for research use only. Not for use in diagnostic or therapeutic procedures.

### CLEC3B Antibody (Center) Blocking peptide - Protein Information

**Name** CLEC3B

**Synonyms** TNA

**Function**
Tetranectin binds to plasminogen and to isolated kringle 4. May be involved in the packaging of molecules destined for exocytosis. Plays a role in retinal function (PubMed:<a href="http://www.uniprot.org/citations/35331648" target="_blank">35331648</a>).

**Cellular Location**
Secreted.

**Tissue Location**
Found in plasma.

### CLEC3B Antibody (Center) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Blocking Peptides

**CLEC3B Antibody (Center) Blocking peptide - Images**

**CLEC3B Antibody (Center) Blocking peptide - Background**

Tetranectin binds to plasminogen and to isolated kringle 4. It may be involved in the packaging of molecules destined for exocytosis.
