

PCDH18 Antibody (C-term) Blocking peptide
Synthetic peptide
Catalog # BP13587b**Specification**

PCDH18 Antibody (C-term) Blocking peptide - Product Information

Primary Accession [Q9HCL0](#)

PCDH18 Antibody (C-term) Blocking peptide - Additional Information

Gene ID 54510

Other Names

Protocadherin-18, PCDH18, KIAA1562

Target/Specificity

The synthetic peptide sequence used to generate the antibody AP13587b was selected from the C-term region of PCDH18. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

PCDH18 Antibody (C-term) Blocking peptide - Protein Information

Name PCDH18

Synonyms KIAA1562

Function

Potential calcium-dependent cell-adhesion protein.

Cellular Location

Cell membrane; Single-pass type I membrane protein

Tissue Location

Expressed in all tissues, with highest expression in lung and ovary.

PCDH18 Antibody (C-term) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

PCDH18 Antibody (C-term) Blocking peptide - Background

This gene belongs to the protocadherin gene family, a subfamily of the cadherin superfamily. This gene encodes a protein which contains 6 extracellular cadherin domains, a transmembrane domain and a cytoplasmic tail differing from those of the classical cadherins. Although its specific function is undetermined, the cadherin-related neuronal receptor is thought to play a role in the establishment and function of specific cell-cell connections in the brain.
