

### OR14C36 Antibody (C-term) Blocking peptide Synthetic peptide Catalog # BP13761b

## Specification

# **OR14C36 Antibody (C-term) Blocking peptide - Product Information**

Primary Accession

## <u>Q8NHC7</u>

# **OR14C36** Antibody (C-term) Blocking peptide - Additional Information

Gene ID 127066

**Other Names** Olfactory receptor 14C36, Olfactory receptor 5BF1, Olfactory receptor OR1-59, OR14C36, OR5BF1

### Target/Specificity

The synthetic peptide sequence used to generate the antibody AP13761b was selected from the C-term region of OR14C36. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

### Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

#### Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

## **OR14C36** Antibody (C-term) Blocking peptide - Protein Information

Name OR14C36

Synonyms OR5BF1

Function Odorant receptor.

**Cellular Location** Cell membrane; Multi-pass membrane protein.

## **OR14C36 Antibody (C-term) Blocking peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.

### Blocking Peptides

# OR14C36 Antibody (C-term) Blocking peptide - Images

## OR14C36 Antibody (C-term) Blocking peptide - Background

Olfactory receptors interact with odorant molecules in thenose, to initiate a neuronal response that triggers the perception of a smell. The olfactory receptor proteins are members of a largefamily of G-protein-coupled receptors (GPCR) arising from singlecoding-exon genes. Olfactory receptors share a 7-transmembranedomain structure with many neurotransmitter and hormone receptorsand are responsible for the recognition and G protein-mediatedtransduction of odorant signals. The olfactory receptor gene family is the largest in the genome. The nomenclature assigned to theolfactory receptor genes and proteins for this organism isindependent of other organisms.
