

FOXP4 Antibody (C-term) Blocking Peptide
Synthetic peptide
Catalog # BP14361b**Specification**

FOXP4 Antibody (C-term) Blocking Peptide - Product InformationPrimary Accession [Q8IVH2](#)**FOXP4 Antibody (C-term) Blocking Peptide - Additional Information****Gene ID** 116113**Other Names**

Forkhead box protein P4, Fork head-related protein-like A, FOXP4, FKHLA

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

FOXP4 Antibody (C-term) Blocking Peptide - Protein Information**Name** FOXP4**Synonyms** FKHLA**Function**

Transcriptional repressor that represses lung-specific expression.

Cellular Location

Nucleus {ECO:0000255|PROSITE-ProRule:PRU00089}.

FOXP4 Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

FOXP4 Antibody (C-term) Blocking Peptide - Images**FOXP4 Antibody (C-term) Blocking Peptide - Background**

This gene belongs to subfamily P of the forkhead box (FOX) transcription factor family. Forkhead box transcription factors play important roles in the regulation of tissue- and cell type-specific gene transcription during both development and adulthood. Many members of the forkhead box gene family, including members of subfamily P, have roles in mammalian oncogenesis. This gene may play a role in the development of tumors of the kidney and larynx. Alternative splicing of this gene produces multiple transcript variants, some encoding different isoforms. [provided by RefSeq].
