

GJB5 Antibody (Center) Blocking Peptide Synthetic peptide Catalog # BP1545b

### Specification

# GJB5 Antibody (Center) Blocking Peptide - Product Information

Primary Accession

<u>095377</u>

## GJB5 Antibody (Center) Blocking Peptide - Additional Information

Gene ID 2709

**Other Names** Gap junction beta-5 protein, Connexin-311, Cx311, GJB5

Target/Specificity

The synthetic peptide sequence used to generate the antibody <a href=/product/products/AP1545b>AP1545b</a> was selected from the center region of human GJB5. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage** Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

## **Precautions** This product is for research use only. Not for use in diagnostic or therapeutic procedures.

### GJB5 Antibody (Center) Blocking Peptide - Protein Information

Name GJB5

Function

One gap junction consists of a cluster of closely packed pairs of transmembrane channels, the connexons, through which materials of low MW diffuse from one cell to a neighboring cell.

**Cellular Location** Cell membrane; Multi-pass membrane protein. Cell junction, gap junction

### GJB5 Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

### GJB5 Antibody (Center) Blocking Peptide - Background

Gap junctions are conduits that allow the direct cell-to-cell passage of small cytoplasmic molecules, including ions, metabolic intermediates, and second messengers, and thereby mediate intercellular metabolic and electrical communication. Gap junction channels consist of connexin protein subunits, which are encoded by a multigene family. GJBs (gap-junction proteins or connexins) such as GJB5 are thought to play crucial functional roles associated with these channels.
