OR9G4 Antibody (C-term) Blocking Peptide

Synthetic peptide
Catalog # BP16377b

Specification

OR9G4 Antibody (C-term) Blocking Peptide - Product Information

Primary Accession Q8NGQ1

OR9G4 Antibody (C-term) Blocking Peptide - Additional Information

Gene ID 283189

Other Names
Olfactory receptor 9G4, Olfactory receptor OR11-216, OR9G4

Format
Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage
Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions
This product is for research use only. Not for use in diagnostic or therapeutic procedures.

OR9G4 Antibody (C-term) Blocking Peptide - Protein Information

Name OR9G4

Function
Odorant receptor.

Cellular Location
Cell membrane; Multi-pass membrane protein.

OR9G4 Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Blocking Peptides

OR9G4 Antibody (C-term) Blocking Peptide - Background

Olfactory receptors interact with odorant molecules in thenose, to initiate a neuronal response that triggers the perceptionof a smell. The olfactory receptor proteins are members of a largefamily of

G-protein-coupled receptors (GPCR) arising from singlecoding-exon genes. Olfactory receptors share a 7-transmembranedomain structure with many neurotransmitter and hormone receptorsand are responsible for the recognition and G protein-mediatedtransduction of odorant signals. The olfactory receptor gene familyis the largest in the genome. The nomenclature assigned to theolfactory receptor genes and proteins for this organism isindependent of other organisms.
