KLHDC4 Antibody (Center) Blocking Peptide

Synthetic peptide
Catalog # BP16529c

Specification

KLHDC4 Antibody (Center) Blocking Peptide - Product Information

Primary Accession Q8TBB5

KLHDC4 Antibody (Center) Blocking Peptide - Additional Information

Gene ID 54758

Other Names
Kelch domain-containing protein 4, KLHDC4

Format
Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage
Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions
This product is for research use only. Not for use in diagnostic or therapeutic procedures.

KLHDC4 Antibody (Center) Blocking Peptide - Protein Information

Name KLHDC4

KLHDC4 Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Blocking Peptides

KLHDC4 Antibody (Center) Blocking Peptide - Background

Kelch proteins (and Kelch-like proteins) are proteins that have repeated kelch domains. Most Kelch proteins also have a BTB (defn) domain. Each kelch domain forms the blade of a propellar structure, with the repeated kelch domains forming a Beta-propellar. The structure of this Beta-propellar is known but the function is not characterised. KLHDC4 contains six Kelch repeats. There are three named isoforms.
