

**SYNGR2 Antibody (N-term) Blocking Peptide**  
**Synthetic peptide**  
**Catalog # BP16618a****Specification**

---

**SYNGR2 Antibody (N-term) Blocking Peptide - Product Information**Primary Accession [O43760](#)**SYNGR2 Antibody (N-term) Blocking Peptide - Additional Information****Gene ID** 9144**Other Names**

Synaptogyrin-2, Cellugyrin, SYNGR2

**Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

**SYNGR2 Antibody (N-term) Blocking Peptide - Protein Information****Name** SYNGR2 ([HGNC:11499](#))**Function**

May play a role in regulated exocytosis. In neuronal cells, modulates the localization of synaptophysin/SYP into synaptic-like microvesicles and may therefore play a role in the formation and/or the maturation of this vesicles. May also play a role in GLUT4 storage and transport to the plasma membrane.

**Cellular Location**

Cytoplasmic vesicle membrane {ECO:0000250|UniProtKB:O54980}; Multi-pass membrane protein. Cytoplasmic vesicle, secretory vesicle, synaptic vesicle membrane {ECO:0000250|UniProtKB:O54980}; Multi-pass membrane protein. Note=Localizes to cytoplasmic vesicles associated with the recycling endosomes. {ECO:0000250|UniProtKB:O54980}

**Tissue Location**

Ubiquitous; low expression in brain.

**SYNGR2 Antibody (N-term) Blocking Peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.

#### **SYNGR2 Antibody (N-term) Blocking Peptide - Background**

This gene encodes an integral membrane protein containing four transmembrane regions and a C-terminal cytoplasmic tail that is tyrosine phosphorylated. The exact function of this protein is unclear, but studies of a similar rat protein suggest that it may play a role in regulating membrane traffic in non-neuronal cells. The gene belongs to the synaptogyrin gene family. [provided by RefSeq].
