

FNTB Antibody (N-term) Blocking Peptide
Synthetic peptide
Catalog # BP16731a**Specification**

FNTB Antibody (N-term) Blocking Peptide - Product InformationPrimary Accession [P49356](#)**FNTB Antibody (N-term) Blocking Peptide - Additional Information****Gene ID** 100529261;2342**Other Names**

Protein farnesyltransferase subunit beta, FTase-beta, CAAX farnesyltransferase subunit beta, Ras proteins prenyltransferase subunit beta, FNTB

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

FNTB Antibody (N-term) Blocking Peptide - Protein Information**Name** FNTB**Function**

Essential subunit of the farnesyltransferase complex. Catalyzes the transfer of a farnesyl moiety from farnesyl diphosphate to a cysteine at the fourth position from the C-terminus of several proteins having the C-terminal sequence Cys-aliphatic-aliphatic-X.

FNTB Antibody (N-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Blocking Peptides](#)

FNTB Antibody (N-term) Blocking Peptide - Images**FNTB Antibody (N-term) Blocking Peptide - Background**

FNTB Catalyzes the transfer of a farnesyl moiety from farnesyl pyrophosphate to a cysteine at the fourth position from the C-terminus of several proteins. The beta subunit is responsible for

peptide-binding.
