

#### **PTPN18 Antibody (C-term) Blocking Peptide** Synthetic peptide

Catalog # BP16925b

## Specification

# PTPN18 Antibody (C-term) Blocking Peptide - Product Information

Primary Accession

#### <u>Q99952</u>

## PTPN18 Antibody (C-term) Blocking Peptide - Additional Information

Gene ID 26469

**Other Names** Tyrosine-protein phosphatase non-receptor type 18, Brain-derived phosphatase, PTPN18, BDP1

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage** Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions** This product is for research use only. Not for use in diagnostic or therapeutic procedures.

## PTPN18 Antibody (C-term) Blocking Peptide - Protein Information

Name PTPN18

Synonyms BDP1

Function

Differentially dephosphorylate autophosphorylated tyrosine kinases which are known to be overexpressed in tumor tissues.

**Cellular Location** Nucleus. Cytoplasm.

**Tissue Location** Expressed in brain, colon and several tumor-derived cell lines.

## PTPN18 Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

Blocking Peptides

## PTPN18 Antibody (C-term) Blocking Peptide - Background

The protein encoded by this gene is a member of theprotein tyrosine phosphatase (PTP) family. PTPs are known to besignaling molecules that regulate a variety of cellular processes including cell growth, differentiation, the mitotic cycle, andoncogenic transformation. This PTP contains a PEST motif, whichoften serves as a protein-protein interaction domain, and may berelated to protein intracellular half-live. This protein candifferentially dephosphorylate autophosphorylated tyrosine kinasesthat are overexpressed in tumor tissues, and it appears to regulateHER2, a member of the epidermal growth factor receptor family ofreceptor tyrosine kinases. Two transcript variants encoding different isoforms have been found for this gene. [provided byRefSeq].
