SUPT7L Antibody (Center) Blocking Peptide

Synthetic peptide
Catalog # BP17064c

Specification

SUPT7L Antibody (Center) Blocking Peptide - Product Information

Primary Accession O94864

SUPT7L Antibody (Center) Blocking Peptide - Additional Information

Gene ID 9913

Other Names
STAGA complex 65 subunit gamma, Adenocarcinoma antigen ART1, SPTF-associated factor 65 gamma, STAF65gamma, Suppressor of Ty 7-like, SUPT7L, KIAA0764

Format
Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage
Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions
This product is for research use only. Not for use in diagnostic or therapeutic procedures.

SUPT7L Antibody (Center) Blocking Peptide - Protein Information

Name SUPT7L

Synonyms KIAA0764

Cellular Location
Nucleus.

Tissue Location
Expressed at high levels in adenocarcinomas and gliomas and low in esophageal cancers and malignant hematological disease. Also expressed at high level in the thymus, low in peripheral blood mononuclear cells, and lowest in the stomach, small intestine, and skeletal muscle

SUPT7L Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Blocking Peptides

SUPT7L Antibody (Center) Blocking Peptide - Background

SUPT7L is a protein subunit of the human STAGA complex(SPT3; (MIM 602947)/TAF9 (MIM 600822)/GCN5 (MIM 602301)acetyltransferase complex), which is a chromatin-modifyingmultiprotein complex (Martinez et al., 2001 [PubMed11564863]).
