

HECTD3 Antibody (C-term) Blocking Peptide
Synthetic peptide
Catalog # BP17451b**Specification**

HECTD3 Antibody (C-term) Blocking Peptide - Product InformationPrimary Accession [Q5T447](#)**HECTD3 Antibody (C-term) Blocking Peptide - Additional Information****Gene ID** 79654**Other Names**

E3 ubiquitin-protein ligase HECTD3, 632-, HECT domain-containing protein 3, HECTD3

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

HECTD3 Antibody (C-term) Blocking Peptide - Protein Information**Name** HECTD3**Function**

E3 ubiquitin ligases accepts ubiquitin from an E2 ubiquitin- conjugating enzyme in the form of a thioester and then directly transfers the ubiquitin to targeted substrates. Mediates ubiquitination of TRIOBP and its subsequent proteasomal degradation, thus facilitating cell cycle progression by regulating the turn-over of TRIOBP. Mediates also ubiquitination of STX8 (By similarity).

Cellular Location

Cytoplasm, perinuclear region.

HECTD3 Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
