

CMTM5 Antibody (Center) Blocking Peptide
Synthetic peptide
Catalog # BP17518c

Specification

CMTM5 Antibody (Center) Blocking Peptide - Product Information

Primary Accession [Q96DZ9](#)

CMTM5 Antibody (Center) Blocking Peptide - Additional Information

Gene ID 116173

Other Names

CKLF-like MARVEL transmembrane domain-containing protein 5, Chemokine-like factor superfamily member 5, CMTM5, CKLFSF5

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

CMTM5 Antibody (Center) Blocking Peptide - Protein Information

Name CMTM5

Synonyms CKLFSF5

Cellular Location

Membrane; Multi-pass membrane protein.

Tissue Location

Highly expressed in the brain.

CMTM5 Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

CMTM5 Antibody (Center) Blocking Peptide - Background

This gene belongs to the chemokine-like factor genesuperfamily. This family of genes encodes multi-pass membraneproteins that are similar to both the chemokine and thetransmembrane 4 superfamilies of signaling molecules. Alternatetranscriptional splice variants of this gene, encoding differentisoforms, have been characterized.
