IGSF6 Antibody (Center) Blocking Peptide

Synthetic peptide
Catalog # BP17688c

Specification

IGSF6 Antibody (Center) Blocking Peptide - Product Information

Primary Accession O95976

IGSF6 Antibody (Center) Blocking Peptide - Additional Information

Gene ID 10261

Other Names
Immunoglobulin superfamily member 6, IgSF6, Protein DORA, IGSF6, DORA

Format
Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage
Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions
This product is for research use only. Not for use in diagnostic or therapeutic procedures.

IGSF6 Antibody (Center) Blocking Peptide - Protein Information

Name IGSF6

Synonyms DORA

Cellular Location
Membrane; Single-pass type I membrane protein

Tissue Location
Expressed in peripheral blood lymphocytes, spleen and lymph node, with low levels in thymus, bone marrow and fetal liver No expression in non-immune tissues.

IGSF6 Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Blocking Peptides

IGSF6 Antibody (Center) Blocking Peptide - Images

IGSF6 Antibody (Center) Blocking Peptide - Background

Molecular function: transmembrane receptor activity. Biological process: cell surface receptor linked signal transduction. Biological process: immune response.
