

ZNF280B Antibody (N-term) Blocking Peptide Synthetic peptide Catalog # BP17865a

Specification

ZNF280B Antibody (N-term) Blocking Peptide - Product Information

Primary Accession

<u>Q86YH2</u>

ZNF280B Antibody (N-term) Blocking Peptide - Additional Information

Gene ID 140883

Other Names Zinc finger protein 280B, 5'OY111, Suppressor of hairy wing homolog 2, Zinc finger protein 279, Zinc finger protein 632, ZNF280B, SUHW2, ZNF279, ZNF632

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions This product is for research use only. Not for use in diagnostic or therapeutic procedures.

ZNF280B Antibody (N-term) Blocking Peptide - Protein Information

Name ZNF280B

Synonyms SUHW2, ZNF279, ZNF632

Function May function as a transcription factor.

Cellular Location Nucleus.

ZNF280B Antibody (N-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

<u>Blocking Peptides</u>

ZNF280B Antibody (N-term) Blocking Peptide - Background

This gene was identified by homology to other species. Itsencoded protein is approximately 78-88% identical to a predictedsheep protein of unknown function. The protein is alsoapproximately 25% identical to the Drosophila protein suppressor ofhairy wing, which is a leucine zipper protein that represses thefunction of transcriptional enhancers of the gypsy retrotransposon.
