

#### LRC51 Antibody (N-term) Blocking Peptide Synthetic peptide

Catalog # BP18168a

## Specification

# LRC51 Antibody (N-term) Blocking Peptide - Product Information

Primary Accession

<u>Q96E66</u>

## LRC51 Antibody (N-term) Blocking Peptide - Additional Information

Gene ID 120356739

**Other Names** Leucine-rich repeat-containing protein 51, Protein LRTOMT1, LRTOMT, LRRC51

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage** Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions** This product is for research use only. Not for use in diagnostic or therapeutic procedures.

### LRC51 Antibody (N-term) Blocking Peptide - Protein Information

Name LRRC51 (HGNC:55526)

Cellular Location Cytoplasm.

### LRC51 Antibody (N-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

### LRC51 Antibody (N-term) Blocking Peptide - Background

This gene encodes two different proteins. One is aleucine-rich transmembrane protein of unknown function while theother is an O-methyltransferase. Defects in the O-methyltransferaseprotein can cause nonsyndromic deafness. Several transcriptvariants encoding different isoforms of each protein have beenfound for this gene, along with a transcript that is not thought tobe protein-coding.
