

**RPAP3 Antibody (Center) Blocking Peptide**  
**Synthetic peptide**  
**Catalog # BP18284c****Specification**

---

**RPAP3 Antibody (Center) Blocking Peptide - Product Information**Primary Accession [Q9H6T3](#)**RPAP3 Antibody (Center) Blocking Peptide - Additional Information****Gene ID** 79657**Other Names**

RNA polymerase II-associated protein 3, RPAP3

**Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

**RPAP3 Antibody (Center) Blocking Peptide - Protein Information****Name** RPAP3**Function**

Forms an interface between the RNA polymerase II enzyme and chaperone/scaffolding protein, suggesting that it is required to connect RNA polymerase II to regulators of protein complex formation.

**RPAP3 Antibody (Center) Blocking Peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- [Blocking Peptides](#)

**RPAP3 Antibody (Center) Blocking Peptide - Images****RPAP3 Antibody (Center) Blocking Peptide - Background**

This gene encodes an RNA polymerase II-associated protein. The encoded protein may function in transcriptional regulation and may also regulate apoptosis. Alternatively spliced transcript variants have been described.
