CLEC17A Antibody (C-term) Blocking Peptide

Synthetic peptide
Catalog # BP18330b

Specification

CLEC17A Antibody (C-term) Blocking Peptide - Product Information

Primary Accession Q6ZS10

CLEC17A Antibody (C-term) Blocking Peptide - Additional Information

Gene ID 388512

Other Names
C-type lectin domain family 17, member A, Prolectin, CLEC17A

Format
Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage
Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions
This product is for research use only. Not for use in diagnostic or therapeutic procedures.

CLEC17A Antibody (C-term) Blocking Peptide - Protein Information

Name CLEC17A

Function
Cell surface receptor which may be involved in carbohydrate- mediated communication between cells in the germinal center. Binds glycans with terminal alpha-linked mannose or fucose residues.

Cellular Location
Membrane; Single-pass type II membrane protein. Note=In fibroblasts, expressed on the cell surface.

Tissue Location
Expressed on dividing B-cells of germinal centers in various tissues, including lymph nodes, tonsils, stomach, intestine, appendix and spleen.

CLEC17A Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Blocking Peptides
