

K1712 Antibody (C-term) Blocking Peptide

Synthetic peptide Catalog # BP18343b

Specification

K1712 Antibody (C-term) Blocking Peptide - Product Information

Primary Accession

09C0F1

K1712 Antibody (C-term) Blocking Peptide - Additional Information

Gene ID 80817

Other Names

Centrosomal protein of 44 kDa, Cep44, HBV PreS1-transactivated protein 3, PS1TP3, CEP44, KIAA1712

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

K1712 Antibody (C-term) Blocking Peptide - Protein Information

Name CEP44

Synonyms KIAA1712

Function

Centriole-enriched microtubule-binding protein involved in centriole biogenesis. In collaboration with CEP295 and POC1B, is required for the centriole-to-centrosome conversion by ensuring the formation of bona fide centriole wall (PubMed:32060285). Functions as a linker component that maintains centrosome cohesion. Associates with CROCC and regulates its stability and localization to the centrosome (PubMed:31974111).

Cellular Location

Cytoplasm, cytoskeleton, microtubule organizing center, centrosome. Cytoplasm, cytoskeleton, microtubule organizing center, centrosome, centriole. Cytoplasm, cytoskeleton, spindle pole. Midbody Note=Localizes to the proximal end of mother and daughter centrioles

K1712 Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
