

## RNF144B Antibody (Center) Blocking Peptide

Synthetic peptide Catalog # BP18585c

### **Specification**

## RNF144B Antibody (Center) Blocking Peptide - Product Information

**Primary Accession** 

**Q7Z419** 

# RNF144B Antibody (Center) Blocking Peptide - Additional Information

**Gene ID 255488** 

#### **Other Names**

E3 ubiquitin-protein ligase RNF144B, 632-, IBR domain-containing protein 2, RING finger protein 144B, p53-inducible RING finger protein, RNF144B, IBRDC2, P53RFP

#### **Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

### **Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

#### **Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

### RNF144B Antibody (Center) Blocking Peptide - Protein Information

Name RNF144B

Synonyms IBRDC2, P53RFP

#### **Function**

E3 ubiquitin-protein ligase which accepts ubiquitin from E2 ubiquitin-conjugating enzymes UBE2L3 and UBE2L6 in the form of a thioester and then directly transfers the ubiquitin to targeted substrates such as LCMT2, thereby promoting their degradation. Induces apoptosis via a p53/TP53-dependent but caspase-independent mechanism. However, its overexpression also produces a decrease of the ubiquitin- dependent stability of BAX, a pro-apoptotic protein, ultimately leading to protection of cell death; But, it is not an anti-apoptotic protein per se.

#### **Cellular Location**

Mitochondrion membrane; Single-pass membrane protein. Cytoplasm Note=Mostly cytosololic, accumulates in submitochondrial domains specifically upon apoptosis induction, in synchrony with BAX activation

### **Tissue Location**

Broadly expressed, with lowest levels in brain and thymus, and highest levels detectable in heart, ovary and testis

# RNF144B Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
