

PPARG Antibody (N-term) Blocking Peptide
Synthetic peptide
Catalog # BP19438a**Specification**

PPARG Antibody (N-term) Blocking Peptide - Product Information**PPARG Antibody (N-term) Blocking Peptide - Additional Information****Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

PPARG Antibody (N-term) Blocking Peptide - Protein Information**PPARG Antibody (N-term) Blocking Peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.

PPARG Antibody (N-term) Blocking Peptide - Images**PPARG Antibody (N-term) Blocking Peptide - Background**

This gene encodes a member of the peroxisomeproliferator-activated receptor (PPAR) subfamily of nuclearreceptors. PPARs form heterodimers with retinoid X receptors (RXRs)and these heterodimers regulate transcription of various genes.Three subtypes of PPARs are known: PPAR-alpha, PPAR-delta, andPPAR-gamma. The protein encoded by this gene is PPAR-gamma and is aregulator of adipocyte differentiation. Additionally, PPAR-gammahas been implicated in the pathology of numerous diseases includingobesity, diabetes, atherosclerosis and cancer. Alternativelyspliced transcript variants that encode different isoforms havebeen described.
