

# PTCD3 Antibody (C-term) Blocking Peptide

Synthetic peptide Catalog # BP1967b

## Specification

# PTCD3 Antibody (C-term) Blocking Peptide - Product Information

Primary Accession

<u>Q96EY7</u>

# PTCD3 Antibody (C-term) Blocking Peptide - Additional Information

Gene ID 55037

**Other Names** 

Pentatricopeptide repeat domain-containing protein 3, mitochondrial, 28S ribosomal protein S39, mitochondrial, MRP-S39, Transformation-related gene 15 protein, TRG-15, PTCD3, MRPS39

#### Target/Specificity

The synthetic peptide sequence used to generate the antibody <a href=/product/products/AP1967b>AP1967b</a> was selected from the C-term region of human PTCD3. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

#### Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

#### Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

#### PTCD3 Antibody (C-term) Blocking Peptide - Protein Information

Name PTCD3

Synonyms MRPS39

**Function** Mitochondrial RNA-binding protein that has a role in mitochondrial translation.

Cellular Location Mitochondrion

**Tissue Location** Abundant in testes, skeletal muscle and heart tissue.

# PTCD3 Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

### PTCD3 Antibody (C-term) Blocking Peptide - Background

The pentatricopeptide repeat motif is a signature of RNA binding proteins.
