

DCLK1 Blocking Peptide (C-term)

Synthetic peptide

Catalog # BP20304b

Specification

DCLK1 Blocking Peptide (C-term) - Product Information

Primary Accession

[O15075](#)

Other Accession

[Q9JLM8](#)**DCLK1 Blocking Peptide (C-term) - Additional Information**

Gene ID 9201

Other Names

Serine/threonine-protein kinase DCLK1, Doublecortin domain-containing protein 3A, Doublecortin-like and CAM kinase-like 1, Doublecortin-like kinase 1, DCLK1, DCAMKL1, DCDC3A, KIAA0369

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

DCLK1 Blocking Peptide (C-term) - Protein Information

Name DCLK1

Synonyms DCAMKL1, DCDC3A, KIAA0369

Function

Probable kinase that may be involved in a calcium-signaling pathway controlling neuronal migration in the developing brain. May also participate in functions of the mature nervous system.

Tissue Location

In fetal tissues, highly expressed in brain, detectable in lung and liver, but not in kidney. In adult tissues, expressed ubiquitously in the brain, detectable in the heart, liver, spleen, thymus, prostate, testis, ovary, small intestine and colon. The type A isoforms seem to be expressed predominantly in fetal brain whereas type B isoforms are expressed abundantly in both fetal and adult brain.

DCLK1 Blocking Peptide (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.
