

Mouse Dbx1 Blocking Peptide (C-term)**Synthetic peptide****Catalog # BP20966c****Specification**

Mouse Dbx1 Blocking Peptide (C-term) - Product Information

Primary Accession

[P52950](#)

Other Accession

[Q5NSW5](#), [A5PKG8](#)**Mouse Dbx1 Blocking Peptide (C-term) - Additional Information****Gene ID** 13172**Other Names**

Homeobox protein DBX1, Developing brain homeobox protein 1, Dbx1, Dbx

Target/Specificity

The synthetic peptide sequence is selected from aa 261-275 of HUMAN Dbx1

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

Mouse Dbx1 Blocking Peptide (C-term) - Protein Information**Name** Dbx1**Synonyms** Dbx**Function**

Could have a role in patterning the central nervous system during embryogenesis. Has a key role in regulating the distinct phenotypic features that distinguish two major classes of ventral interneurons, V0 and V1 neurons. Regulates the transcription factor profile, neurotransmitter phenotype, intraspinal migratory path and axonal trajectory of V0 neurons, features that differentiate them from an adjacent set of V1 neurons.

Cellular Location

Nucleus.

Mouse Dbx1 Blocking Peptide (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.
