

## Mouse Frk Blocking Peptide (C-term)

Synthetic peptide Catalog # BP21130a

## **Specification**

### Mouse Frk Blocking Peptide (C-term) - Product Information

Primary Accession Q922K9
Other Accession Q62662

## Mouse Frk Blocking Peptide (C-term) - Additional Information

### Gene ID 14302

### **Other Names**

Tyrosine-protein kinase FRK, Beta-cell Src-homology tyrosine kinase, BSK, FYN-related kinase, Intestine tyrosine kinase, Frk, Bsk, Iyk

### **Target/Specificity**

The synthetic peptide sequence is selected from aa 476-489 of HUMAN Frk

### **Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

#### **Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

### **Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

## Mouse Frk Blocking Peptide (C-term) - Protein Information

### Name Frk

Synonyms Bsk, lyk

## **Function**

Non-receptor tyrosine-protein kinase that negatively regulates cell proliferation. Positively regulates PTEN protein stability through phosphorylation of PTEN on 'Tyr-336', which in turn prevents its ubiquitination and degradation, possibly by reducing its binding to NEDD4. May function as a tumor suppressor (By similarity).

### **Cellular Location**

Cytoplasm. Nucleus. Note=Predominantly found in the nucleus, with a small fraction found in the cell periphery.

### **Tissue Location**

Expressed in intestinal tract, fetal and adult islets of Langerhans, kidney, liver and lung

## Mouse Frk Blocking Peptide (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.
