

PNMT Blocking Peptide (Center)
Synthetic peptide
Catalog # BP21394c**Specification**

PNMT Blocking Peptide (Center) - Product InformationPrimary Accession [P11086](#)**PNMT Blocking Peptide (Center) - Additional Information****Gene ID** 5409**Other Names**

Phenylethanolamine N-methyltransferase, PNMTase, Noradrenaline N-methyltransferase, PNMT, PENT

Target/Specificity

The synthetic peptide sequence is selected from aa 158-172 of HUMAN PNMT

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

PNMT Blocking Peptide (Center) - Protein Information**Name** PNMT**Synonyms** PENT**Function**

Catalyzes the transmethylation of norepinephrine (noradrenaline) to form epinephrine (adrenaline), using S-adenosyl-L- methionine as the methyl donor (PubMed:20496117). Other substrates include phenylethanolamine and octopamine (PubMed:8812853, PubMed:16363801, PubMed:16277617). Also methylates normetanephrine (By similarity).

PNMT Blocking Peptide (Center) - Protocols

Provided below are standard protocols that you may find useful for product applications.
