

HMGA2 Blocking Peptide (C-term)

Synthetic peptide Catalog # BP21439b

Specification

HMGA2 Blocking Peptide (C-term) - Product Information

Primary Accession

P52926

HMGA2 Blocking Peptide (C-term) - Additional Information

Gene ID 8091

Other Names

High mobility group protein HMGI-C, High mobility group AT-hook protein 2, HMGA2, HMGIC

Target/Specificity

The synthetic peptide sequence is selected from aa 84-98 of HUMAN HMGA2

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

HMGA2 Blocking Peptide (C-term) - Protein Information

Name HMGA2

Synonyms HMGIC

Function

Functions as a transcriptional regulator. Functions in cell cycle regulation through CCNA2. Plays an important role in chromosome condensation during the meiotic G2/M transition of spermatocytes. Plays a role in postnatal myogenesis, is involved in satellite cell activation (By similarity). Positively regulates IGF2 expression through PLAG1 and in a PLAG1-independent manner (PubMed:28796236).

Cellular Location

Nucleus.

HMGA2 Blocking Peptide (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

• Blocking Peptides
