

# TMF1 Blocking Peptide (Center)

Synthetic peptide Catalog # BP21851c

### **Specification**

# TMF1 Blocking Peptide (Center) - Product Information

**Primary Accession** 

P82094

# TMF1 Blocking Peptide (Center) - Additional Information

**Gene ID 7110** 

#### **Other Names**

TATA element modulatory factor, TMF, Androgen receptor coactivator 160 kDa protein, Androgen receptor-associated protein of 160 kDa, TMF1, ARA160

# Target/Specificity

The synthetic peptide sequence is selected from aa 467-480 of HUMAN TMF1

#### **Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

#### Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

#### **Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

### TMF1 Blocking Peptide (Center) - Protein Information

Name TMF1

Synonyms ARA160

#### **Function**

Potential coactivator of the androgen receptor. Mediates STAT3 degradation. May play critical roles in two RAB6-dependent retrograde transport processes: one from endosomes to the Golgi and the other from the Golgi to the ER. This protein binds the HIV-1 TATA element and inhibits transcriptional activation by the TATA-binding protein (TBP).

### **Cellular Location**

Cytoplasm. Nucleus. Golgi apparatus membrane. Note=Concentrated at the budding structures localized at the tips of cisternae

# TMF1 Blocking Peptide (Center) - Protocols

Provided below are standard protocols that you may find useful for product applications.
