

NPTX2 Antibody (C-term) Blocking Peptide
Synthetic peptide
Catalog # BP2718b**Specification**

NPTX2 Antibody (C-term) Blocking Peptide - Product InformationPrimary Accession [P47972](#)**NPTX2 Antibody (C-term) Blocking Peptide - Additional Information****Gene ID** 4885**Other Names**

Neuronal pentraxin-2, NP2, Neuronal pentraxin II, NP-II, NPTX2

Target/Specificity

The synthetic peptide sequence used to generate the antibody [AP2718b](/product/products/AP2718b) was selected from the C-term region of human NPTX2. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

NPTX2 Antibody (C-term) Blocking Peptide - Protein Information**Name** NPTX2**Function**

Likely to play role in the modification of cellular properties that underlie long-term plasticity. Binds to agar matrix in a calcium-dependent manner (By similarity).

Cellular Location

Secreted.

Tissue Location

Brain, pancreas, liver, heart and skeletal muscle. Highest levels are seen in the testis

NPTX2 Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

NPTX2 Antibody (C-term) Blocking Peptide - Background

NPTX2 is likely to play a role in the modification of cellular properties that underlie long-term plasticity. It binds to agar matrix in a calcium-dependent manner.
