

**CBF (CEBPZ) Antibody (C-term) Blocking peptide**  
**Synthetic peptide**  
**Catalog # BP2727b****Specification**

---

**CBF (CEBPZ) Antibody (C-term) Blocking peptide - Product Information**Primary Accession [Q03701](#)**CBF (CEBPZ) Antibody (C-term) Blocking peptide - Additional Information****Gene ID** 10153**Other Names**

CCAAT/enhancer-binding protein zeta, CCAAT-box-binding transcription factor, CBF, CCAAT-binding factor, CEBPZ, CBF2

**Target/Specificity**

The synthetic peptide sequence used to generate the antibody [AP2727b](/products/AP2727b) was selected from the C-term region of human CEBPZ. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

**Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

**CBF (CEBPZ) Antibody (C-term) Blocking peptide - Protein Information****Name** CEBPZ**Synonyms** CBF2**Function**

Stimulates transcription from the HSP70 promoter.

**Cellular Location**

Nucleus.

**CBF (CEBPZ) Antibody (C-term) Blocking peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.
