

T126A Antibody (C-term) Blocking Peptide
Synthetic peptide
Catalog # BP4824b**Specification**

T126A Antibody (C-term) Blocking Peptide - Product InformationPrimary Accession [Q9H061](#)**T126A Antibody (C-term) Blocking Peptide - Additional Information****Gene ID** 84233**Other Names**

Transmembrane protein 126A, TMEM126A

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

T126A Antibody (C-term) Blocking Peptide - Protein Information**Name** TMEM126A**Cellular Location**

Mitochondrion inner membrane; Multi-pass membrane protein

Tissue Location

Strongly expressed in brain, cerebellum, skeletal muscle, testis. High expression also found in fetal brain, fetal retinal pigmentary epithelium, and fetal retina. Highly expressed in retinal ganglion cells.

T126A Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Blocking Peptides](#)

T126A Antibody (C-term) Blocking Peptide - Images**T126A Antibody (C-term) Blocking Peptide - Background**

The T126A gene encodes a mitochondrial protein of higher eukaryotes with 4 transmembrane domains and a central domain conserved with TMEM126B.
