

# TPPP3 Antibody (C-term) Blocking Peptide

Synthetic peptide Catalog # BP5004b

# **Specification**

## TPPP3 Antibody (C-term) Blocking Peptide - Product Information

Primary Accession

## TPPP3 Antibody (C-term) Blocking Peptide - Additional Information

**Gene ID** 51673

#### **Other Names**

Tubulin polymerization-promoting protein family member 3, TPPP/p20, TPPP3

#### **Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Q9BW30** 

#### Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

### **Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

## TPPP3 Antibody (C-term) Blocking Peptide - Protein Information

Name TPPP3 {ECO:0000303|PubMed:19633818, ECO:0000312|HGNC:HGNC:24162}

### **Function**

Regulator of microtubule dynamic that has microtubule bundling activity (PubMed:<a href="http://www.uniprot.org/citations/17105200" target="\_blank">17105200</a>, PubMed:<a href="http://www.uniprot.org/citations/19633818" target="\_blank">19633818</a>). Required for embryo implantation; possibly by regulating beta-catenin (By similarity). Also required for decidualization via regulation of beta- catenin (PubMed:<a href="http://www.uniprot.org/citations/30667362" target=" blank">30667362</a>).

### **Cellular Location**

Cytoplasm, Cytoplasm, cytoskeleton

#### **Tissue Location**

Expressed in endometrium during the mid-secretory phase (LH + 7) (at protein level).

### TPPP3 Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

• Blocking Peptides

## TPPP3 Antibody (C-term) Blocking Peptide - Images

# TPPP3 Antibody (C-term) Blocking Peptide - Background

TPPP3 binds tubulin and has microtubule bundling activity. TPPP3 may play a role in cell proliferation and mitosis.
