

DSCR10 Antibody (Center) Blocking Peptide
Synthetic peptide
Catalog # BP6322j**Specification**

DSCR10 Antibody (Center) Blocking Peptide - Product InformationPrimary Accession [P59022](#)**DSCR10 Antibody (Center) Blocking Peptide - Additional Information****Other Names**

Down syndrome critical region protein 10, DSCR10

Target/Specificity

The synthetic peptide sequence used to generate the antibody [AP6322j](/product/products/AP6322j) was selected from the Center region of human DSCR10. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

DSCR10 Antibody (Center) Blocking Peptide - Protein Information**Name** DSCR10**Tissue Location**

Expressed in placenta and testis.

DSCR10 Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

DSCR10 Antibody (Center) Blocking Peptide - Images**DSCR10 Antibody (Center) Blocking Peptide - Background**

The gene for DSCR10 is located in the Down Syndrome Critical Region (DSCR). DSCR10 is

expressed preferentially in testis, and appears to be unique to primate genomes.
