GRHPR Antibody (C-term) Blocking Peptide
Synthetic peptide
Catalog # BP7331b

Specification

GRHPR Antibody (C-term) Blocking Peptide - Product Information

Primary Accession Q9UBQ7

GRHPR Antibody (C-term) Blocking Peptide - Additional Information

Gene ID 9380

Other Names
Glyoxylate reductase/hydroxypyruvate reductase, GRHPR, GLXR

Target/Specificity
The synthetic peptide sequence used to generate the antibody AP7331b was selected from the C-term region of human GRHPR. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format
Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage
Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions
This product is for research use only. Not for use in diagnostic or therapeutic procedures.

GRHPR Antibody (C-term) Blocking Peptide - Protein Information

Name GRHPR

Synonyms GLXR

Function
Enzyme with hydroxy-pyruvate reductase, glyoxylate reductase and D-glycerate dehydrogenase enzymatic activities. Reduces hydroxypyruvate to D-glycerate, glyoxylate to glycolate, oxidizes D-glycerate to hydroxypyruvate.

Tissue Location
Ubiquitous. Most abundantly expressed in the liver.

GRHPR Antibody (C-term) Blocking Peptide - Background

GRHPR is an enzyme with hydroxypyruvate reductase, glyoxylate reductase, and D-glycerate dehydrogenase enzymatic activities. The protein has widespread tissue expression and has a role in metabolism.
