

### LRPAP1 Antibody (C-term) Blocking Peptide Synthetic peptide

Catalog # BP8529b

## Specification

# LRPAP1 Antibody (C-term) Blocking Peptide - Product Information

Primary Accession

<u>P30533</u>

## LRPAP1 Antibody (C-term) Blocking Peptide - Additional Information

Gene ID 4043

**Other Names** 

Alpha-2-macroglobulin receptor-associated protein, Alpha-2-MRAP, Low density lipoprotein receptor-related protein-associated protein 1, RAP, LRPAP1, A2MRAP

## Target/Specificity

The synthetic peptide sequence used to generate the antibody <a href=/products/AP8529b>AP8529b</a> was selected from the C-term region of human LRPAP1. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

### Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

### LRPAP1 Antibody (C-term) Blocking Peptide - Protein Information

Name LRPAP1 (HGNC:6701)

### Synonyms A2MRAP

Function

Molecular chaperone for LDL receptor-related proteins that may regulate their ligand binding activity along the secretory pathway.

### **Cellular Location**

Rough endoplasmic reticulum lumen. Endoplasmic reticulum-Golgi intermediate compartment lumen. Golgi apparatus, cis- Golgi network. Golgi apparatus lumen. Endosome lumen. Cell surface. Note=May be associated with receptors at the cell surface.

## LRPAP1 Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Blocking Peptides
- LRPAP1 Antibody (C-term) Blocking Peptide Images

## LRPAP1 Antibody (C-term) Blocking Peptide - Background

LRPAP1 interacts with LRP1/alpha-2-macroglobulin receptor and glycoprotein 330.
