

MST1 Antibody (Center) Blocking Peptide

Synthetic peptide Catalog # BP8554c

Specification

MST1 Antibody (Center) Blocking Peptide - Product Information

Primary Accession

P26927

MST1 Antibody (Center) Blocking Peptide - Additional Information

Gene ID 4485

Other Names

Hepatocyte growth factor-like protein, Macrophage stimulatory protein, Macrophage-stimulating protein, MSP, Hepatocyte growth factor-like protein alpha chain, Hepatocyte growth factor-like protein beta chain, MST1, D3F15S2, DNF15S2, HGFL

Target/Specificity

The synthetic peptide sequence used to generate the antibody AP8554c was selected from the Center region of human MST1. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

MST1 Antibody (Center) Blocking Peptide - Protein Information

Name MST1

Synonyms D3F15S2, DNF15S2, HGFL

Cellular Location

Secreted.

MST1 Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

MST1 Antibody (Center) Blocking Peptide - Background

MST1 probably has no proteolytic activity, since crucial characteristic of serine proteases catalytic sites are not conserved.
