

HLA-B Antibody (N-term) Blocking Peptide

Synthetic peptide Catalog # BP8616a

Specification

HLA-B Antibody (N-term) Blocking Peptide - Product Information

Primary Accession

P03989

HLA-B Antibody (N-term) Blocking Peptide - Additional Information

Other Names

HLA class I histocompatibility antigen, B-27 alpha chain, MHC class I antigen B*27, HLA-B, HLAB

Target/Specificity

The synthetic peptide sequence used to generate the antibody AP8616a was selected from the N-term region of human HLA-B. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.
