

BTAF1 Antibody (N-term) Blocking Peptide
Synthetic peptide
Catalog # BP8964a**Specification**

BTAF1 Antibody (N-term) Blocking Peptide - Product InformationPrimary Accession [O14981](#)**BTAF1 Antibody (N-term) Blocking Peptide - Additional Information****Gene ID** 9044**Other Names**

TATA-binding protein-associated factor 172, 364-, ATP-dependent helicase BTAF1, B-TFIID transcription factor-associated 170 kDa subunit, TAF(II)170, TBP-associated factor 172, TAF-172, BTAF1, TAF172

Target/Specificity

The synthetic peptide sequence used to generate the antibody [AP8964a](/products/AP8964a) was selected from the N-term region of human BTAF1. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

BTAF1 Antibody (N-term) Blocking Peptide - Protein Information**Name** BTAF1**Synonyms** TAF172**Function**

Regulates transcription in association with TATA binding protein (TBP). Removes TBP from the TATA box in an ATP-dependent manner.

Cellular Location

Nucleus.

BTAF1 Antibody (N-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
