

FAM46D Antibody (Center) Blocking Peptide
Synthetic peptide
Catalog # BP9241c**Specification**

FAM46D Antibody (Center) Blocking Peptide - Product InformationPrimary Accession [Q8NEK8](#)**FAM46D Antibody (Center) Blocking Peptide - Additional Information****Gene ID** 169966**Other Names**

Protein FAM46D, FAM46D

Target/Specificity

The synthetic peptide sequence used to generate the antibody [AP9241c](/products/AP9241c) was selected from the Center region of human FAM46D. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

FAM46D Antibody (Center) Blocking Peptide - Protein Information**Name** TENT5D ([HGNC:28399](#))**Function**

Catalyzes the transfer of one adenosine molecule from an ATP to an mRNA poly(A) tail bearing a 3'-OH terminal group.

Tissue Location

restricted to testis.

FAM46D Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

FAM46D Antibody (Center) Blocking Peptide - Background

FAM46D were found only in plasma from cancer patients. While it may be a target for immunotherapy, the function of this protein is unknown.
