

# SGIP1 Antibody (N-term) Blocking Peptide

Synthetic peptide Catalog # BP9556b

### **Specification**

### SGIP1 Antibody (N-term) Blocking Peptide - Product Information

Primary Accession

**09B0I5** 

## SGIP1 Antibody (N-term) Blocking Peptide - Additional Information

**Gene ID 84251** 

#### **Other Names**

SH3-containing GRB2-like protein 3-interacting protein 1, Endophilin-3-interacting protein, SGIP1

#### **Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

#### Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

#### **Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

### SGIP1 Antibody (N-term) Blocking Peptide - Protein Information

Name SGIP1

#### **Function**

May function in clathrin-mediated endocytosis. Has both a membrane binding/tubulating activity and the ability to recruit proteins essential to the formation of functional clathrin-coated pits. Has a preference for membranes enriched in phosphatidylserine and phosphoinositides and is required for the endocytosis of the transferrin receptor. May also bind tubulin. May play a role in the regulation of energy homeostasis.

## **Cellular Location**

Membrane, clathrin-coated pit; Peripheral membrane protein; Cytoplasmic side

#### **Tissue Location**

Specifically expressed in brain.

# SGIP1 Antibody (N-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

## SGIP1 Antibody (N-term) Blocking Peptide - Background

SGIP1 functions as an endocytic protein that affects signaling by receptors in neuronal systems involved in energy homeostasis via its interaction with endophilins (see SH3GL3; MIM 603362) (Trevaskis et al., 2005 [PubMed 15919751] and Uezu et al., 2007 [PubMed 17626015]).
