

NSE4A Antibody (N-term) Blocking Peptide

Synthetic peptide Catalog # BP9909a

Specification

NSE4A Antibody (N-term) Blocking Peptide - Product Information

Primary Accession

<u>Q9NXX6</u>

NSE4A Antibody (N-term) Blocking Peptide - Additional Information

Gene ID 54780

Other Names

Non-structural maintenance of chromosomes element 4 homolog A, NS4EA, Non-SMC element 4 homolog A, NSMCE4A, C10orf86

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions This product is for research use only. Not for use in diagnostic or therapeutic procedures.

NSE4A Antibody (N-term) Blocking Peptide - Protein Information

Name NSMCE4A

Synonyms C10orf86

Function

Component of the SMC5-SMC6 complex, a complex involved in DNA double-strand breaks by homologous recombination. The complex may promote sister chromatid homologous recombination by recruiting the SMC1-SMC3 cohesin complex to double-strand breaks. The complex is required for telomere maintenance via recombination in ALT (alternative lengthening of telomeres) cell lines and mediates sumoylation of shelterin complex (telosome) components which is proposed to lead to shelterin complex disassembly in ALT-associated PML bodies (APBs). Is involved in positive regulation of response to DNA damage stimulus.

Cellular Location Nucleus. Chromosome, telomere

NSE4A Antibody (N-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
