

ATG13 Antibody (N-term) Blocking Peptide
Synthetic peptide
Catalog # BP9928a**Specification**

ATG13 Antibody (N-term) Blocking Peptide - Product InformationPrimary Accession [O75143](#)**ATG13 Antibody (N-term) Blocking Peptide - Additional Information****Gene ID** 9776**Other Names**

Autophagy-related protein 13, ATG13, KIAA0652

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

ATG13 Antibody (N-term) Blocking Peptide - Protein Information**Name** ATG13**Synonyms** KIAA0652**Function**

Autophagy factor required for autophagosome formation and mitophagy. Target of the TOR kinase signaling pathway that regulates autophagy through the control of the phosphorylation status of ATG13 and ULK1, and the regulation of the ATG13-ULK1-RB1CC1 complex. Through its regulation of ULK1 activity, plays a role in the regulation of the kinase activity of mTORC1 and cell proliferation.

Cellular Location

Cytoplasm, cytosol. Preautophagosomal structure. Note=Under starvation conditions, is localized to punctate structures primarily representing the isolation membrane; the isolation membrane sequesters a portion of the cytoplasm resulting in autophagosome formation

ATG13 Antibody (N-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
