

Recombinant Human TAFA-2
Catalog # PBG10432**Specification**

Recombinant Human TAFA-2 - Product Information**Recombinant Human TAFA-2 - Additional Information****Description**

TAFA proteins are a newly discovered family of proteins, which are distantly related to MIP-1 α , a member of the CC-chemokine family. TAFA mRNAs are highly expressed in specific brain regions. The biological function of TAFA-2 is still unknown. Recombinant human TAFA-2 is an 11.2 kDa protein consisting of 101 amino acid residues.

Biological Activity

Not Available at this time.

Authenticity

Verified by N-terminal and Mass Spectrometry analyses (when applicable).

Endotoxin

Endotoxin level is <0.1 ng/ μ g of protein (<1EU/ μ g).

Protein Content

Verified by UV Spectroscopy and/or SDS-PAGE gel.

Storage

-20°C

Precautions

Recombinant Human TAFA-2 is for research use only and not for use in diagnostic or therapeutic procedures.

Recombinant Human TAFA-2 - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)
