

ILK1 Blocking Peptide

Catalog # PBV10180b

Specification

ILK1 Blocking Peptide - Product Information

 Primary Accession
 055222

 Other Accession
 NP_034692

 Gene ID
 16202

 Calculated MW
 51373

ILK1 Blocking Peptide - Additional Information

Gene ID 16202

Application & Usage The peptide is used for blocking the

antibody activity of ILK1. It usually blocks the antibody activity completely in Western blot analysis by incubating the peptide with equal volume of antibody for

30-60 minutes at 37°C.

Other Names

Integrin-linked protein kinase, 2.7.11.1, Ilk

Target/Specificity

ILK1

Formulation

 $50~\mu g$ (0.5 mg/ml) in phosphate buffered saline (PBS), pH 7.2, containing 50% glycerol, 1% BSA and 0.02% thimerosal.

Reconstitution & Storage

-20 °C

Background Descriptions

Precautions

ILK1 Blocking Peptide is for research use only and not for use in diagnostic or therapeutic procedures.

ILK1 Blocking Peptide - Protein Information

Name Ilk {ECO:0000312|MGI:MGI:1195267}

Function

Receptor-proximal protein kinase regulating integrin-mediated signal transduction. May act as a mediator of inside-out integrin signaling. Focal adhesion protein part of the complex ILK-PINCH. This complex is considered to be one of the convergence points of integrin- and growth

factor-signaling pathway. Could be implicated in mediating cell architecture, adhesion to integrin substrates and anchorage-dependent growth in epithelial cells. Regulates cell motility by forming a complex with PARVB. Phosphorylates beta-1 and beta-3 integrin subunit on serine and threonine residues, but also AKT1 and GSK3B.

Cellular Location

Cell junction, focal adhesion. Cell membrane; Peripheral membrane protein; Cytoplasmic side {ECO:0000250|UniProtKB:Q13418}. Cytoplasm, myofibril, sarcomere {ECO:0000250|UniProtKB:Q13418}. Cell projection, lamellipodium

Tissue Location

Highly expressed in lung, heart, kidney, liver, brain, spleen and skeletal muscle. Weakly expressed in testis

ILK1 Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- <u>Immunoprecipitation</u>
- Flow Cytomety
- Cell Culture
