

Annexin VIII Blocking Peptide
Catalog # PBV10284b**Specification**

Annexin VIII Blocking Peptide - Product Information

Primary Accession [Q5T2P8](#)
Gene ID **653145**

Annexin VIII Blocking Peptide - Additional Information

Application & Usage **The peptide is used for blocking the antibody activity of Annexin VIII. It usually blocks the antibody activity completely in Western blot analysis by incubating the peptide with equal volume of antibody for 30-60 minutes at 37°C**

Other Names
Annexin A8-like protein 1, ANXA8L1

Target/Specificity
Annexin VIII

Formulation
50 µg (0.5 mg/ml) in phosphate buffered saline (PBS), pH 7.2, containing 0.1% BSA and 0.02% thimerosal.

Reconstitution & Storage
-20 °C

Background Descriptions

Precautions
Annexin VIII Blocking Peptide is for research use only and not for use in diagnostic or therapeutic procedures.

Annexin VIII Blocking Peptide - Protein Information**Annexin VIII Blocking Peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.
