

Vespid Chemotactic Peptide T
Synthetic Peptide
Catalog # SP2220b**Specification**

Vespid Chemotactic Peptide T - Product InformationPrimary Accession
Sequence[P17231](#)
NH2-FLPILGKILGGLL-CONH2**Vespid Chemotactic Peptide T - Additional Information****Other Names**

Vespid chemotactic peptide T, VESCP-T, Ves-CP-T, CRBL

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

Vespid Chemotactic Peptide T - Protein Information**Name** CRBL**Function**

Mast cell degranulating peptide. Induces the chemotaxis of neutrophils (Ref.1). Its mast cell degranulation activity may be related to the activation of G-protein coupled receptors in mast cells as well as interaction with other proteins located in cell endosomal membranes in the mast cells (By similarity).

Cellular Location

Secreted {ECO:0000269|Ref.1}.

Tissue Location

Expressed by the venom gland. {ECO:0000305|Ref.1}.
