

Biotin-PACAP (1-38), amide, human, ovine, rat

Synthetic Peptide Catalog # SP3468a

Specification

Biotin-PACAP (1-38), amide, human, ovine, rat - Product Information

Primary Accession Other Accession Sequence

O70176
P13589, Q29W19, P41535, P16613, P18509
BIOTIN-HSDGIFTDSYSRYRKQMAVKKYLAAVL
GKRYKQRVKNK-CONH2

Biotin-PACAP (1-38), amide, human, ovine, rat - Additional Information

Gene ID 11516

Other Names

Pituitary adenylate cyclase-activating polypeptide, PACAP, PACAP-related peptide, PRP-48, Pituitary adenylate cyclase-activating polypeptide 27, PACAP-27, PACAP-27, Pituitary adenylate cyclase-activating polypeptide 38, PACAP-38, PACAP-38, Adcyap1, Pacap

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

Biotin-PACAP (1-38), amide, human, ovine, rat - Protein Information

Name Adcyap1

Synonyms Pacap

Function

Binding to its receptor activates G proteins and stimulates adenylate cyclase in pituitary cells (By similarity). Promotes neuron projection development through the RAPGEF2/Rap1/B-Raf/ERK pathway (By similarity). In chromaffin cells, induces long-lasting increase of intracellular calcium concentrations and neuroendocrine secretion (By similarity). Involved in the control of glucose homeostasis, induces insulin secretion by pancreatic beta cells (PubMed:23913443).

Cellular Location

Secreted.
