

Stick Insect Hypertrehalosaemic Factor II
Synthetic Peptide
Catalog # SP3522b

Specification

Stick Insect Hypertrehalosaemic Factor II - Product Information

Primary Accession [P62542](#)
Sequence **Pyr-LTFTPNWGT-CONH2**

Stick Insect Hypertrehalosaemic Factor II - Additional Information

Other Names

Hypertrehalosaemic factor 2, Hypertrehalosaemic factor II, HRTH-II, HTF-II, Hypertrehalosaemic neuropeptide II, HTF2

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

Stick Insect Hypertrehalosaemic Factor II - Protein Information

Name HTF2

Function

Hypertrehalosaemic factors are neuropeptides that elevate the level of trehalose in the hemolymph (trehalose is the major carbohydrate in the hemolymph of insects).

Cellular Location

Secreted.
