Anti-Bovine CD25 Antibody, clone IL-A111 (RPE) - Additional Information

Other Species: Sh

Other Names: Interleukin-2 receptor subunit alpha, IL-2 receptor subunit alpha, IL-2-Ra, IL-2R subunit alpha, IL2-Ra, TAC antigen, p55, CD25, IL2RA

Target/Specificity

Mouse anti-Bovine CD25 antibody, clone IL-A111 recognizes the bovine CD25 cell surface antigen, a ~55 kDa glycoprotein also known as Interleukin-2 receptor alpha chain. Bovine CD25 is expressed by activated T cells. Clone IL-A111 is reported to block the IL-2 driven proliferation of Con A-induced blast cells/ bovine lymphocytes (Naessens et al.1992).

Precautions

Anti-Bovine CD25 Antibody, clone IL-A111 (RPE) is for research use only and not for use in diagnostic or therapeutic procedures.

Anti-Bovine CD25 Antibody, clone IL-A111 (RPE) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytometry
- Cell Culture
